Vacation plans are on the horizon...

AAA reports that most breakdowns are caused by cooling system failure and typically the traveler is more than 300 miles from home. Your vehicle may have a cooling system problem that you are not aware of. Cooling fans, water pumps, serpentine belts and tensioners, thermostats and hoses should all be checked prior to any highway trip. Take advantage of our

“Summer Vacation Special” and get some
“Peace of Mind” for your next road trip.

Paula Dean’s Baked Spaghetti A La PHILLY

- 1/2 lb. angel hair pasta, uncooked
- 1/2 lb lean ground beef
- 1/2 lb Italian Sausage
- 1 jar (24 oz) Spaghetti Sauce
- 4 oz Cream Cheese, cut into cubes
- 1 cup Shredded Cheddar Cheese
- 1 cup Shredded Monterey Jack Cheese

Heat oven to 350°F.

Cook the pasta according to the package directions; drain.

In a large skillet, brown beef and sausage; drain, if needed. Return meat to skillet. Stir in spaghetti sauce and cream cheese. Cook over low heat until cheese has blended into sauce and it is heated through.

Cover the bottom of a 13x9-inch baking dish with a little sauce. Add a layer of 1/2 pasta and 1/2 remaining sauce, then a little less than 1/2 of each cheese; repeat the layers, ending with the sauce.

Bake in the oven for 25-30 minutes. Top the casserole with the remaining cheese, return it to the oven and continue to cook until the cheese is melted and bubbly, about 5 more minutes.

Cut into squares before serving.

Now you have choices.....

Safety Tips when traveling in your car:

1. Keep plenty of room between you and the car in front of you. A common trick is for the car in front to slam on its brakes and when you hit it and get out, the second person comes up from behind and grabs whatever's in the front or back seat.
2. Always keep your doors locked - and if you have to get out, even for a minute, or for getting gas, etc. lock them behind you.

3. Don't park on the street. It's worth the extra money to pay for parking, which usually has live attendants and video surveillance. It's much easier for thieves to break into cars that are parked on city streets where their activities may go completely unnoticed.
4. Put your purse, bags, backpacks, etc. on the floor so they can't be easily seen through the window. Place all packages in trunk of car prior to leaving the car.

In some cities, a favorite trick of thieves is to grab your purse while you're in your car - two people will drive up next to the passenger side of the car when you're stopped at a light - the one on the back of the bike jumps off, opens your car door if it's unlocked and grabs your purse or backpack off your lap - jumps back on the bike - and zoom!
