Things are changing.....

James Auto Center has been undergoing some exciting changes the past few months. Many of you have seen the construction of our Solar Power System. We invite you to find out how the system works and the benefits of going "Green".

This September marks the 31st Anniversary of James Auto Center, Inc. To celebrate, we are having an Open House on Saturday, Oct. 1 from 11-1:00 pm. Join us for conversation and lunch.

A "Live Remote" Radio Show from the shop will start at 7:00 with Rick's House Home Improvement Show.

James will follow with "Ask the Master Auto Technician" from 9-11 am. Join us during the Radio Shows and register to win door prizes. (You must be present to win.)

WHAT'S THAT SIGHT? DRIVEWAY STAINS

Stains on the driveway are annoying — and indicators of possible service or repair work. Here's how to decipher them (bring a rag — you'll need to touch the stain):

Black stain — It's probably engine oil.

Reddish stain — It could be transmission fluid.

Greenish stain — If it's greenish or has a slightly greasy/slimy feel on your fingers or feels thinner than motor oil, it may be coolant/antifreeze.

Water — Water that drips beneath the vehicle and dries without leaving a stain is from the AC system and is generally nothing to worry about.

Regardless of the stain's source, it should be inspected immediately. Leaking fluids can reduce their safe operating level, which could lead to greater problems. Tell your ACDelco technician about the driveway stains and have the vehicle inspected right away!

HOW DO I TELL A NEW STAIN FROM AN OLD ONE?

Place a piece of cardboard or a paper grocery bag under the engine when you're home for the evening and check it in the morning. A fresh stain on the cardboard means you'll need to have the car inspected.

Hot Wings Potato Skins

Toppings: Blue cheese dressing, cayenne hot sauce, chopped celery and carrots

Pierce 4 large russet potatoes with a fork. Bake directly on the oven rack at 350 degrees until tender, about 1 hour. Let cool, then quarter lengthwise and scoop out the flesh, leaving a 1/4-inch shell. Brush both sides with melted butter and season with salt and pepper. Bake, skin-side up, at 450 degrees until crisp, about 15 minutes. Add your favorite team toppings. (For cheesy skins, flip the baked shells over before topping, sprinkle with 1 cup grated cheddar cheese and bake an extra 5 minutes.)

Now you have choices.....
